PROFESSIONAL SUMMARY

Dedicated Information Systems undergraduate pursuing a degree in IT and Business, seeking a Project Management Intern role. Demonstrated practical experience applying Agile and Scrum methodologies across the IT delivery lifecycle, with proven ability in project tracking, task dependency management, risk mitigation, and cross-functional team coordination using Jira. Experienced in coordinating project meetings, preparing agendas, taking meeting minutes, and tracking action items to ensure successful project outcomes.

CORE SKILLS

Project Planning & Tracking | Agile & Scrum Frameworks | Sprint Planning | Issue Tracking
Requirement Gathering | Risk Identification & Mitigation | Process Improvement | Workflow Management
Project Documentation | Meeting Coordination & Action Item Follow-up | Cross-Functional Team Coordination
Software Development Life Cycle (SDLC) | Database Management Systems (SQL)
Tools: Jira, Microsoft Office (Word, Excel, PowerPoint, Outlook), Microsoft Power BI

CORE COMPETENCIES

Organizational & Time Management
Analytical Thinking & Problem Solving
Research & Analysis
Leadership

PROJECT EXPERIENCE

Eye Clinic Management System — Team Lead

Apr 2024 – Aug 2024

Academic project | GitHub: [View on GitHub](#)

Led a 3-member development team to plan, track, and deliver a comprehensive clinic management system under tight academic constraints. Coordinated project meetings, prepared agendas, took meeting minutes, and tracked action items to ensure team alignment. Conducted requirement-gathering research with clinic staff and proactively identified technical integration risks between frontend and backend components. Mitigated major integration bottlenecks through cross-functional coordination, resulting in successful, on-time delivery of the software and website.

Agile Scrum Simulation Project (Jira-Based Project Management)

Mar 2026

Academic project | GitHub: [View on GitHub](#)

Managed project workflows and team progress within a simulated IT delivery lifecycle to improve overall delivery efficiency. Configured and managed Epics, User Stories, Sprint Backlogs, and Kanban boards in Jira. Actively tracked tasks and dependencies, collaborating with the team to identify areas for process improvement. Successfully completed the simulated lifecycle within target timelines, ensuring full visibility of dependencies and a structured workflow.

EDUCATION

BSc (Hons) in Information Technology for Business

Mar 2026 – Present

Third Year

Higher Diploma in Information Systems

Apr 2025 – Mar 2026

GPA: 3.91

Diploma in Software Engineering

Mar 2023 – Nov 2024

GPA: 3.65

Certificate Course in Software Engineering

Oct 2022 – Feb 2023

LEADERSHIP & ACHIEVEMENTS

IEEE Student Member
Rotaract Member – NIBM
Team Lead – IIT Hackathon
Organizing Committee Member – IEEEExtreme Hackathon
